THE PHOTO VS THE MOMENT....

Who Needs Wedding Content Creation?

Couples who:

Want a phone-free wedding and everyone to be fully present.

Don't want to miss savouring the precious behind the scenes moments.

Are worried the moments will go by too fast and want to eternalise the day.

Want to share their big day online, or with overseas loved ones.

Where Do We Fit On The Day?

We work alongside your photographer and videographer.

Wedding photographers and videographers capture the formal moments, but miss the bts moments and take weeks to deliver the content.

FORMAL

Hire a bts specialist - a wedding content creator, who will capture 100s of fun, funny and intimate moments throughout the day. Get all the content for when you wake up so you can share with loved ones around the world.

Your wedding party captures the bts, but miss the chance to be fully present, while still not getting quality content.

REVIEWS

Laura Howard

Imogen had such a great presence at my wedding, capturing the beautiful candid interactions between the guests. I cannot recommend her enough!

Claire Stewart

All I can say is WOW. I never knew I needed this service until we hired Candid Content Crew. We got the content as soon as we woke up so we could relive the day again and send to friends.

Emily Gunn

We spent so much time and money on our wedding, but it went by so quickly. We planned every detail, but the day was a blur. Now we can relive every moment until we are grey and old!!

WHY US?

As former wedding photographers and videographers, we know how to capture great quality shots. But that's not all that's involved in eternalising great moments. You need to feel comfortable and relaxed so the content reflects you.

Feel relaxed with our bubbly and calming team.

Speedy turn around time.

Professional quality content.

Brings guest's smiles out.
