

Wedding Videos & Packages

— CINEMATIC SHORT FILMS OF YOUR SPECIAL DAY —

Hi There!

Hello everybody! Thank you for showing interest in getting a wedding video done!

In my opinion there is no better way to document your big day. The reason I love the idea of a wedding video is that in 10, 20 or 50 years, you can re-live one of the best days of your life! I can also provide live stream services so that ANY of your friends and family ANYWHERE in the WORLD can enjoy your big day with you!

I thought I would just throw in a little bit of a spiel here to let you know a bit about my process when it comes to getting a wedding video done with myself.

So, on the big day. The way I like to do things, is to basically be a fly on the wall. My style is one of documentation. Showing your beautiful day for what it is! So you will barely notice that we are there! We try to stay out of the way as much as possible while still getting everything that needs to be shot.

I am a pretty relaxed guy and I will try to do everything that I can to make you as comfortable, relaxed and as care free as possible on your big day. Bearing that in mind, please feel free to reach out to me if you have any questions or queries about anything!

My contact details are at the bottom of this document.
