

Our Philosophy

Inspired by celebration. Powered by joy.

At The Cheers Co., we believe your wedding should feel like you – joyful, personal, and full of those little touches that make people smile. That's why we create premium stubby holders that are as stylish as they are sentimental.

Each one is made to order in Queensland, fully customised to reflect your love story, your colours, and your day. Whether you're planning a black-tie soiree or barefoot vows on the beach, we'll help you design a take-home keepsake that gets the party started and lives on long after the last toast.

We're a small family business powered by celebration – and proud to be part of yours.
