

WEDDING CEREMONY PACKAGES

*YOU*nique Occasions - Celebrant and Master of Ceremonies

Choosing the right celebrant (and MC, if you need one) is about more than ticking a box — it's about finding someone you feel comfortable with, who understands your story and can guide your day with warmth, confidence, and care.

Below you'll find my wedding ceremony packages, each designed to be flexible, stress-free, and tailored to suit how you want to celebrate your marriage.

Legals Only: \$650

Including GST

A simple, stress-free option focused purely on making your marriage official.

Perfect for elopements, intimate ceremonies, or couples who want something low-key and private — without the registry office feel.

What's Included

- You, me, and two witnesses to make it official
- One pre-wedding meeting to complete all legal paperwork
- Direct correspondence with me (phone, email or text)
- A short, five-minute ceremony including the legally required wording
- Supply, completion and lodgement of all legal documentation
- Commemorative marriage certificate
- No surcharge for public holidays

Think registry-style simplicity — just in a much nicer setting, and usually for less.

Legals Only weddings are becoming increasingly popular for couples who want to focus on what truly matters — getting married — without the formality or pressure of a traditional ceremony.

It's simple, personal, and often held in beautiful locations — and for many couples, it's the perfect way to say "I do."
