A photograph of two women in a photo booth. The woman on the left is wearing a black pilot's cap with a gold band and a winged logo, green slatted sunglasses, and a large silver sequined bow. She is smiling and adjusting the cap. The woman on the right is wearing white slatted sunglasses and a floral headband with pink and white flowers. She is also smiling. They are in front of a window with dark curtains and a gold glitter backdrop.

# PACKAGE FEATURES

## Personalised Templates

We personalise every Template to suit each client individually. Choose how many photos, select the orientation + layout and our design team will work with you to personalise the template to suite your theme or event

## PERSONALISED GUESTBOOK

A Personalised Guestbook is the Perfect Addition to capture guests well wishes from an event. The attendant will make sure a copy of every photo is stuck in and encourage everyone to leave a loving message.

## SHARING FEATURE

### SHARING BY MMS

We allow all your guests to send all the Photos taken by our Mirror Booth as an SMS message to their phone. Sharing by MMS is quick & easy with an on-glass number pad

### SHARING BY EMAIL

The mirror includes a built-in email sharing which can also be shared directly on the Mirror touch screen.

## SIGN AND STAMP

One of the most exciting features of the Mirror Booth is the optional, built-in Signing & Stamping Feature. Guests love having the ability to personalize their keepsake with this unique and interactive feature.

When the Signature feature is included in a workflow, guests will have the ability to draw or sign their name directly on the mirror, which will then be printed out on the final image.

## PROPS

We offer an extensive selection of exciting props to cater for any kind of event. From hats, and glasses, to masks and a range of different PVC signs. We also offer Custom order Props consistent with Branding for specific events.

## GAMES

The Mirror brings any event to life with fun interactive games which can be played directly on the Mirror using the touch screen technology.

A selection of games can be added into the workflow such as TIC TAC TOE and Pong.
