## **ABOUT THE BAR**

### **Bar Style**

Choose from White or Black or Vintage Wood  
(subject to availability)

### **Space Needed**

We need approx 2.5m x 2.5m for the smaller setup, and 3m x 2.5m for the larger setup. If you position us near another large surface area, we may not need our back bar table and this will take up less space

### **Power**

If booking our bar, we require 1 power point for for the lights under the bar. This is not necessary for day events

### **Water**

If possible, we would love to be near a sink or running water. This is not a necessity, just a preference

For larger events, the setup could take 1-3 hours depending on the size and logistics

We may request to set up the day prior or in the morning of the event date

## **Pack down time**

We usually pack down our bar and equipment after the event. We may request to pack down and collect everything the following day
