

Grazing Tables

Forget buffets and canapes - The Fork N Knife Grazing Table - usually set-up next to the bar - creates the right place with the right atmosphere that encourages your guests to mix and mingle and break the ice...

“ Could not recommend Fork and Knife enough. Daniel is such a fantastic chef and it was such a pleasure to have them cater our engagement party. The service is IO/IO and they went above and beyond for us. All of our guests raved about the food and we could not be happier! Can't wait to have them at our wedding! ”
