Common Q's

Is there a minimum spend?

No minimum spend – because we get it.

Whether you're after just a little or a lot, we're here to help. We believe in making things easy, so you're free to order exactly what you need—nothing more, nothing less.

How much is delivery and setup?

Delivery and setup pricing depends on a few key factors – mainly your location, the bump-in and bump-out times (which means delivery and pickup), and whether your venue requires late-night or after-hours pack-down.

Because every event is different, we quote based on your specific details to make sure you're only paying for what you need.

How long is the hire period?

If location is at home, it will be a 3 day hire. (bump in day prior, day of event, bump out day after).

If location is at a venue, it will be hired for the duration of the event and packed down once event concludes.

Continued Q's

What happens if I want to make changes after the booking?

We totally understand — ideas evolve and plans shift! We're happy to accommodate changes where we can, but there are a few things to keep in mind:

- Timeframe matters – Changes must be made within a certain window before your event (as outlined in our T&Cs).
- Value can't be reduced – While you're welcome to swap items, the overall value of your booking must stay the same or increase — not decrease.
- Availability – All changes depend on what's available at the time, so the sooner you get in touch, the better!

What colours do you have in your range of artificial florals?

We have a wide and ever-evolving range of colours and floral styles available — from soft neutrals and pastels to bold, vibrant tones.

If you're after a specific vibe, colour palette, or even particular types of flowers, just let us know! Given the right timeframes, we can source and customise florals to suit your vision perfectly. Whether you're after something classic, on-trend, or completely unique, we're happy to make it happen.
