# Party Latte

At Party Latte, we understand that your wedding isn't just an event –it's a story. One full of joy, connection, celebration, and love.

And music plays a central role in telling that story. That's why we specialise in providing live music that enhances every part of your day, from the heartfelt to the high-energy.

We're not just performers. We're experienced musical storytellers who know how to match the right sound to every moment –whether it's a delicate ballad during your ceremony, the smooth sophistication of jazz over dinner, or the explosive joy of a packed dance floor. With years of experience and a huge repertoire that spans genres and generations, Party Latte has earned a reputation as one of the most versatile and professional live bands in the business.

If you're looking for music that's personal, live, joyful, and truly tailored to your day, Party Latte is the perfect fit.

## THE PERFECT SOUNDTRACK TO YOUR PERFECT DAY

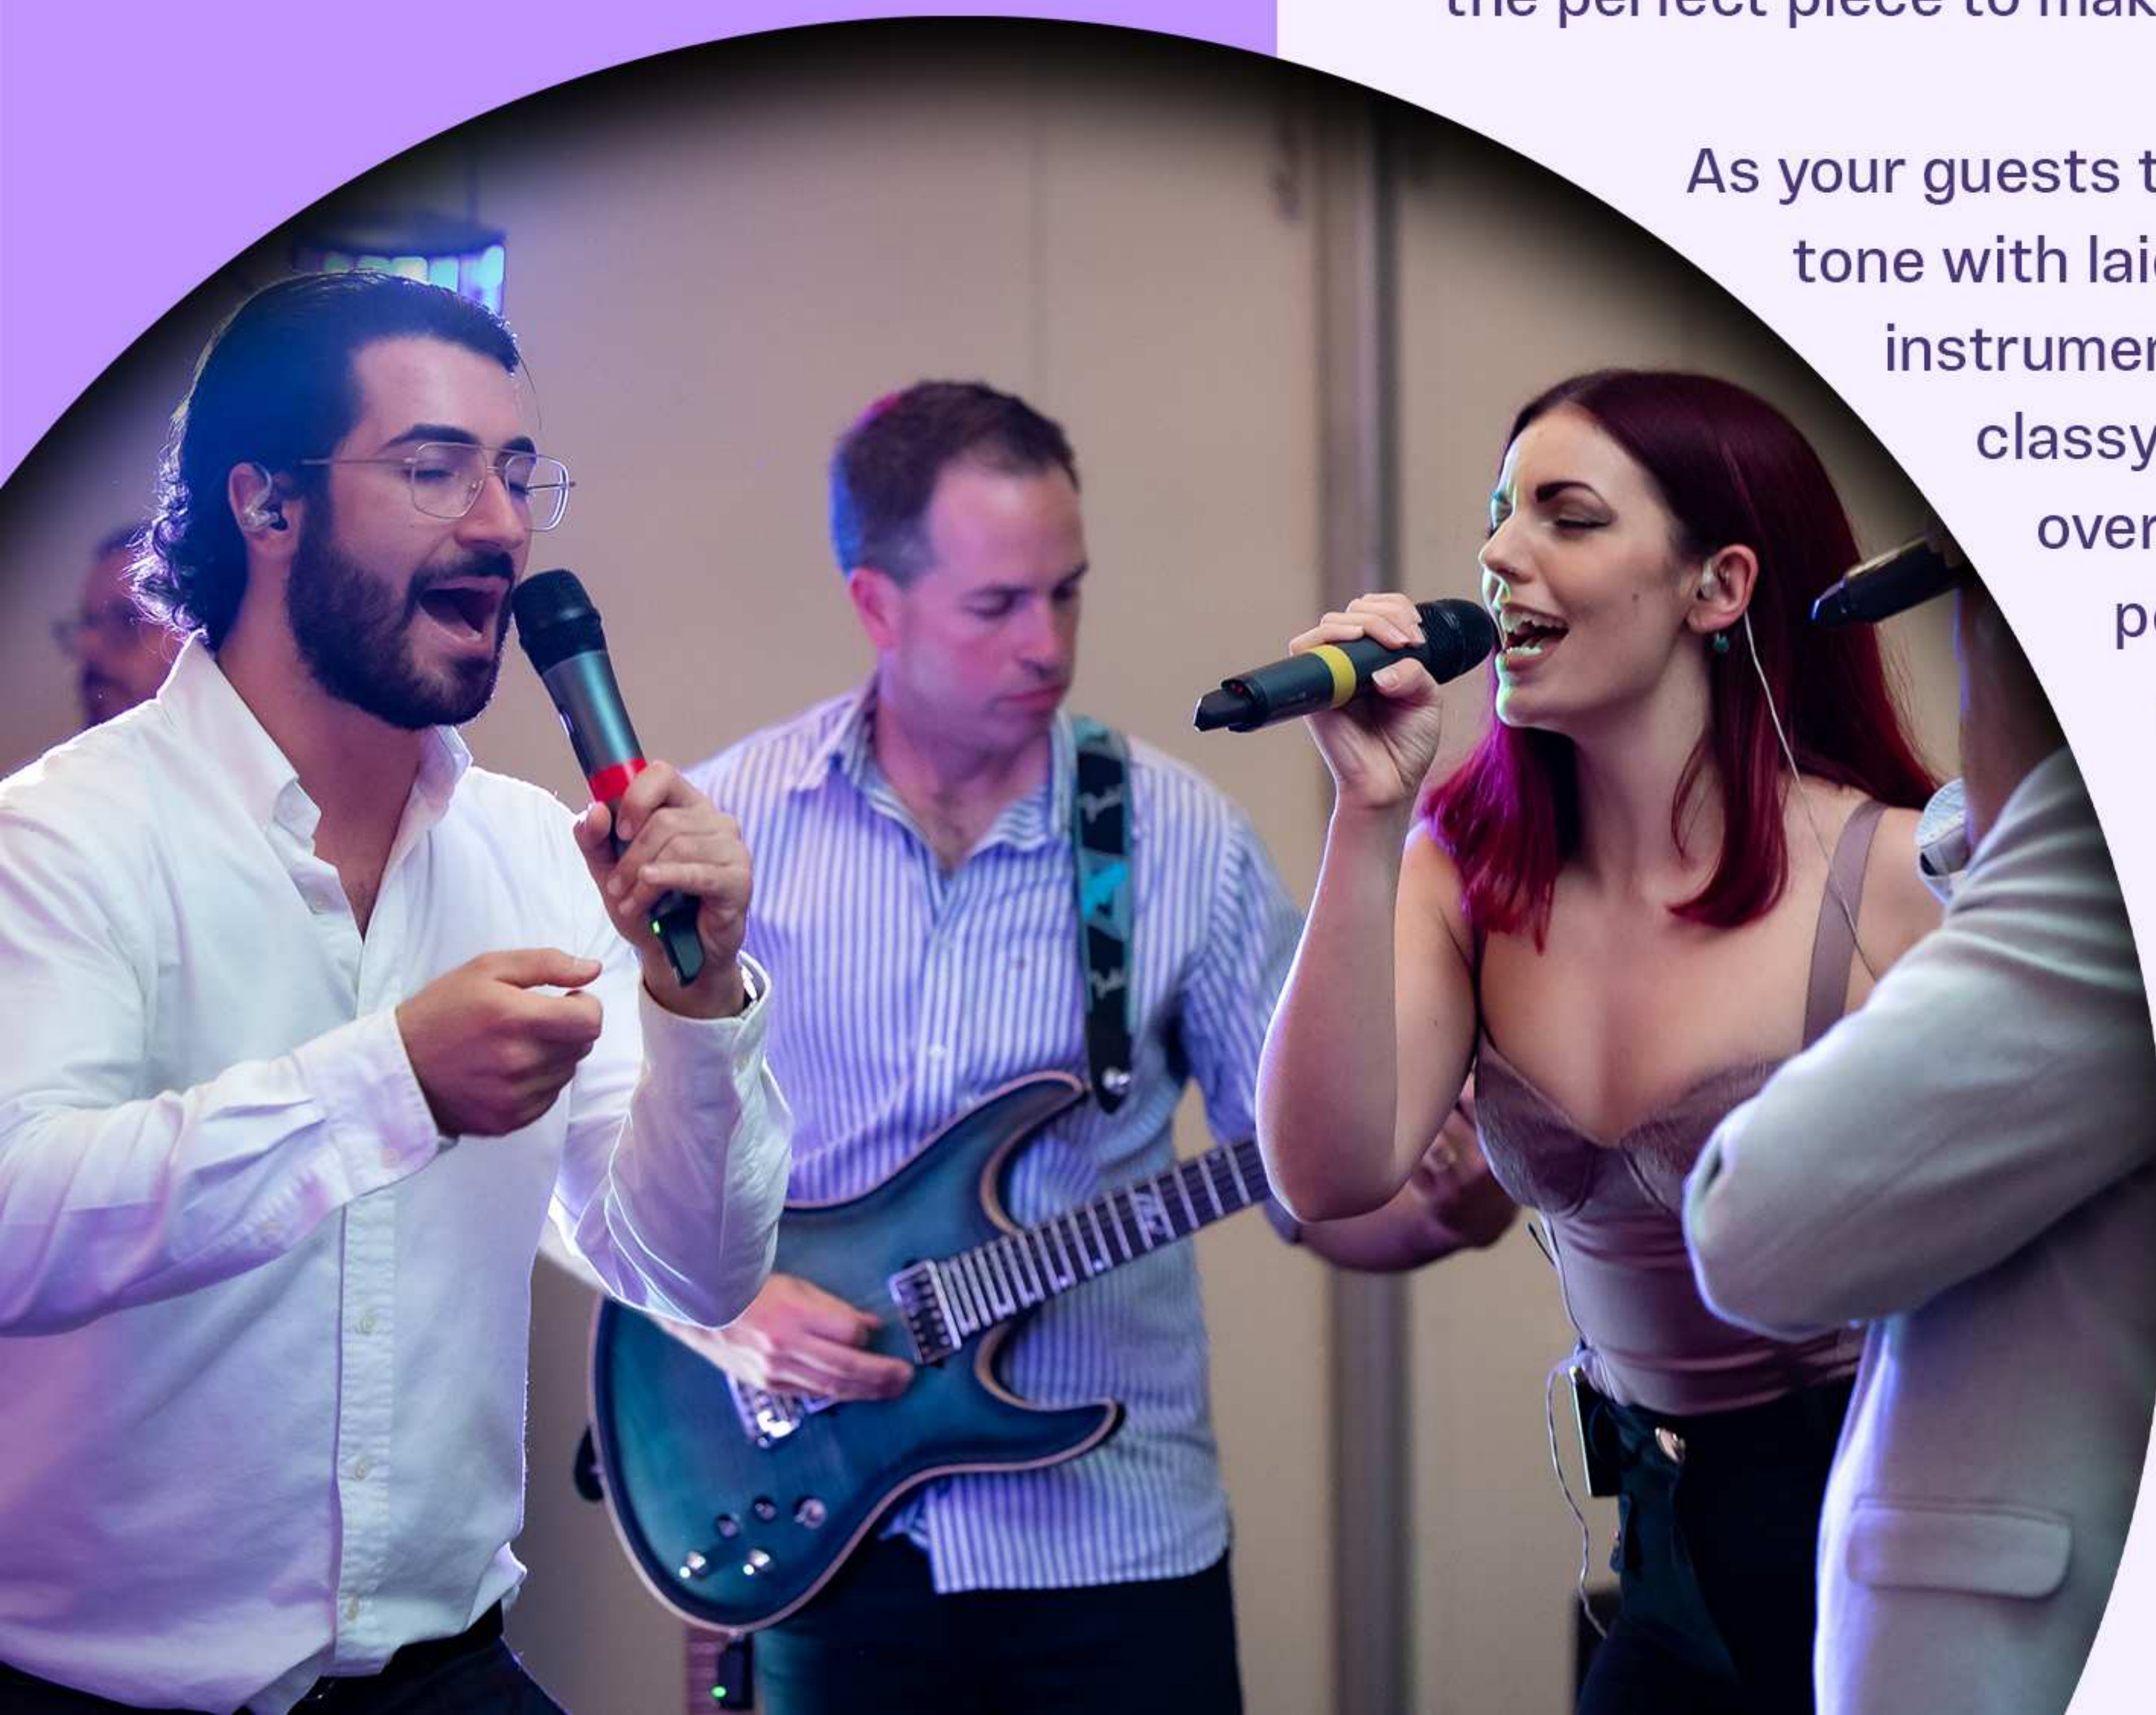

## LIVE MUSIC THAT EVOLVES WITH YOUR DAY

Your wedding day moves through different energies—from intimate and emotional to celebratory and full of momentum. With Party Latte, you'll have a single, adaptable team of professional musicians who can guide the atmosphere of your entire event seamlessly.

For the ceremony, we offer soloists or acoustic duos who can create a beautiful and emotional soundscape for your entrance, signing, and recessional. Whether it's a classic ballad or a modern love song, we'll help you choose (or even learn) the perfect piece to make the moment feel truly yours.

As your guests transition into cocktails and canapés, we shift the tone with laid-back, ambient music—jazz, soul, acoustic pop, or instrumental arrangements that keep the vibe relaxed and classy. Our musicians interact with the space, never overwhelming conversation but always setting the perfect backdrop. Then, when it's time to celebrate, we bring the energy. A great live band creates a connection that pre-recorded music simply can't replicate.

Our performers feed off the crowd's energy, respond in real-time, and know how to build momentum that fills the dance floor and keeps it full. We don't just play songs—we create an experience. It's the spark that turns a great party into an unforgettable one.

## TAILORED LINEUPS – BUILT TO FIT YOUR STYLE AND BUDGET

No two weddings are the same, and neither are our performances. Party Latte offers a range of band configurations so you can match the music to your vision, your venue, and your budget—with no compromise on quality or professionalism.

For more intimate settings, you might choose a duo or trio, perfect for acoustic sets during the ceremony or background music at a smaller reception. If you're after a fuller sound with lead vocals and rhythm section, our 5- to 6-piece band provides a high-energy option that's perfect for dancing while remaining compact enough for most venues.

And for those wanting the full Party Latte experience, our 8- or 9-piece lineup brings the big-band feel—complete with a horn section, powerhouse vocalists, and a rhythm section that grooves like no other. It's the ultimate live music experience, delivering rich harmonies, crowd interaction, and non-stop fun from the first dance to the final encore.

Whatever the size, we bring the same professionalism, polish, and party-starting magic to every configuration. We'll work with you to find the setup that fits best, and help shape a musical journey that reflects your style and makes your celebration unforgettable.
