

Is This You?

- You want your ceremony to feel authentic, not overdone
- You love live music that reflects your style
- You want someone who can read the room — not just press play
- You care about atmosphere and flow, from “I do” to the last song
- You want guests to leave talking about how good the music was

If that's you — we're already off to a good start.

Hi, I'm Jase!

I've been performing live for over 15 years, and weddings are where I feel most at home — the vibe, the emotion, the energy as the day unfolds. My goal is simple: to bring a calm, professional presence while creating a soundtrack that feels like you.

Whether it's acoustic vibes for the ceremony, a smooth set during cocktails, or a high-energy DJ set to keep the party alive — I'll make sure the music fits every moment.

Wedding Packages

All packages include a full professional sound setup. A battery-powered PA system is provided for outdoor or remote ceremony and canapé performances where access to power may be limited.

For DJ sets, access to mains power at the venue is required.

Additional Songs

Your booking includes up to two custom acoustic songs for key moments like your aisle walk or signing.

Need more songs — maybe for your first dance or reception entry? No problem. With 200+ wedding-ready tracks, there's a good chance I already know your favourites. If not, it's just \$100 per additional request to cover the time it takes to learn and perfect your special song.

Travel & Accommodation

- Travel is included for venues within 60 minutes of the Illawarra
- \$50/hour for locations beyond that (round trip)
- For venues 3+ hours away, overnight accommodation is required (at standard market rates)

Everything will be clearly itemised in your quote — no surprises.
