G'DAY MATE

Congratulations on your engagement and welcome wedding planning!

G'day, I'm Jamie your first pick nerdy wedding photographer based in Townsville. I specialise in capturing the raw "YOU" and all your emotions throughout your wedding day using a blend of storytelling, dad jokes and authentic moments.

Because I'm a nerd, I have hidden 5 pop-culture references within this guide. Find all 5 and quote them to me at booking for 5% off your wedding package.

SERVICES & PRICE GUIDE

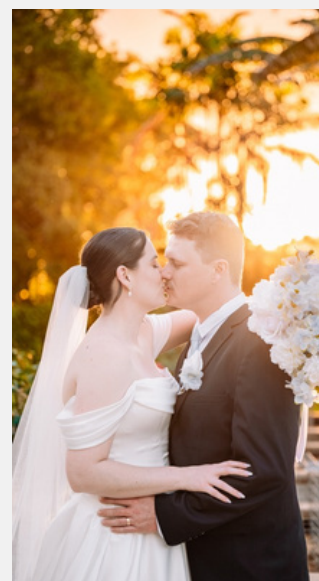

HOW I SHOOT WEDDINGS

Say goodbye to the carbonite poses and say hello to your wild side!

We believe your wedding day is exactly that — yours, not ours. Our role is to document it as you experience it, through our lens. From happy tears and quiet glances to the big laughs and the in-between moments, we focus on the details that make your day unmistakably yours.

Think of us as the third wheel to your love story — there when you need us, mates you can laugh with, and always tuned into the moments that matter. We take a hands-off approach and let the day unfold naturally, stepping in only for group photos and bridal portraits, where we'll offer just a little guidance to help capture the real you.

Our editing style is true to colour and emotionally driven, with no heavy manipulation or forced trends. We create art by enhancing what's already there and quietly removing distractions — nothing more, nothing less.

THE CREW

PHOTOGRAPHY BY JAMIE

JAMIE

Owner and Main Photographer I, Jamie, will be the main voice that you chat with through booking processes through to the wedding day itself, sticking with you every step of the way and assisting wherever requested.

MELISSA

Mel is my wife and partner in arms. When booking videography packages, she will be the girl behind the film. She is also my second shooter when booking photo only. Being a bride herself, she isn't afraid to jump in and help the girls out if needed.

WEDDING PACKAGES

BEYOND THE WALLS

TESTIMONIALS

I highly recommend Jamie, he is a very talented photographer and amazing to work with. He captured our engagement photos and our wedding day so beautifully. He was so helpful before the wedding with organising timelines etc with great advice. He fit in so well on the day, made us feel comfortable and worked around the craziness that weddings are. He is professional and friendly and his photographs are incredible. We are very happy with everything, thank you Jamie!

TESTIMONIALS

We could not have asked for a better photographer for our special day!! The ongoing support both in the lead up, during our engagement photo shoot and on the day was amazing. Jamie was more than happy to help however he could and always made himself available to answer any questions. On our wedding day, both Melissa and Jamie went above and beyond to capture both what they thought would be good photos, but also incorporating what we wanted. They also both stayed well after the reception had concluded to take as many different photos as possible!

READY TO BOOK?

GLAD YOU ASKED

If you love the work and feel a genuine connection, the next step is simple.

Submit an inquiry to confirm availability, and we'll take it from there. A signed contract and retainer officially secure your date — this is Hokage-level commitment, no half measures.

I take on a limited number of weddings each year to give each couple my full attention. Once a date is booked, it's locked in.

THANK YOU

THE ADVENTURE CONTINUES
