

Who we are.

Premillume forms the nexus between Craig Alexander & Naeem Razak, two old friends with a unifying passion for photography. This wasn't simply a career for us, it was always an enduring love affair with the camera and its ability to accurately capture moments in others lives and our own as we grew up, after all, memories are all we have of past events. There's an alluring feeling in photographing people, animate, emotion filled humans that tell their story in a single photo, it's this that retained our interest in portrait photography.
