# CONGRATULATIONS

Getting engaged is such an exciting time of your life to share with your family and friends. And now the planning commences for what will be one of the most important days of your life, your wedding day. A day of celebration, a day of showing your commitment and love for each other, and starting a new chapter of your lives together.

Compose Photography is a boutique studio based in Perth. We have been photographing weddings throughout WA, Australia and overseas for nearly 15 years, and we are still just as in love with our job as when we began. No two weddings are the same, every couples' story is different and it is an honour to be able to capture the special moments that will tell your story for years to come. The laughter, the nerves, the happy tears, the love you share on this day is so important to remember.

## ABOUT COMPOSE PHOTOGRAPHY

Compose Photography is one of Perth's most established wedding and portrait photography studios. Our photographers are Accredited Professional Photographers, and active members of the Australian Institute of Professional Photography. We have won over 100 state and national awards for our images, and also hold the titles of WA Professional Photographer of the Year, and Australian Creative Photographer of the Year for 2014. Other major awards include Illustrative Photographer of the Year, and runner up WA Wedding, Portrait and Landscape Photographer, and Wedding Album of the Year at previous state awards.

Whilst we are honoured with the awards we have received, what we appreciate the most is seeing clients come back to Compose time and again for their professional photography, be it for weddings or family portraits as families grow up. It is a humbling experience to walk in to a client's home and see so much of the art we have created for them on their walls. We enjoy building these long term relationships and becoming a family's photographer for life.

## OUR APPROACH TO WEDDINGS

We photograph weddings with a mixture of candid and posed images. Our photographers want to tell your story of your day, so there are times where we are unobtrusive and will capture the natural flow and moments throughout the day. Then there are the times where some posing creates beautiful artistic images, especially for your bridal portraits, and photos with your bridal party after your ceremony.

Soft, natural light or dramatic fashion styles, we work with our clients to find what is your preferred mix of styles, and then we will put together the best plan for your day.

We are there to ensure your wedding day is the best it can be. We are there with the crochet hook to get your dress done up, putting on buttonholes, tying groomsmen's ties when Youtube isn't working, as well as keeping an eye on the time and creating some beautiful images along the way.

After the wedding day we are also there to assist in selecting your favourite images for your wedding album, and we will then create your beautiful bespoke story from your wedding. It is such an exciting moment when we have the reveal of a finished wedding album!

# INVESTMENT AND OPTIONS

Our wedding coverages have been designed from constant consultation with our clients to make sure that they are perfectly suited to the modern wedding. We have a couple of one photographer options, as well as options with two photographers with plenty of options to add in.

Every coverage includes an Accredited Professional Photographer, who is a qualified and recognised professional, as well as your high resolution digital files from your day. We provide you with your digital files in a print ready and social media format. Most also include a wedding album, which is custom designed from your favourite images.

There are also options for wall prints and canvas, and parent albums for the special people who have helped you in this stage of your life. We also have some options for gifts for your bridal party and other people you wish to thank for their part in your day.

Our one photographer with album coverage starts at \$3900, and our two photographer with album coverage starts at \$4900.

## WHAT OUR CLIENTS SAY

You've spent hours looking at magazines and websites, seen so many lovely photos, but what's it really like on the wedding day? We've asked our clients about their experience with Compose Photography as their wedding photographer.

So many of our new wedding bookings are from referrals, which is a huge compliment. There are so many options available out there, so a recommendation from someone who has been there before can be a great way to know if a business is right for you. The following pages showcase some recent weddings with kind words from our clients.

“With all the meaning and beauty of our wedding we wanted to capture every tiny detail. We chose Compose Photography and felt like we had made another friend. Compose made us both feel comfortable in front of the camera which in turn created the most wonderful photos, not surprising for such an award winning photographer.

They took on board our vision and made suggestions we would never have thought of, **without them, our memories of the day wouldn't be the same.**

Details were captured and photos taken that took our breath away.”

# LAURA & MATTHEW

“Thank you so much Kirsten and Bec for capturing our magical day. We cannot thank you enough for taking such beautiful photos, they are amazing and we were absolutely blown away by them.

You both **made the whole experience so much fun and enjoyable from start to finish.**

We can't thank you enough and we will be recommending Compose photography to all engaged couples we know who are planning their weddings.

Thanks again for the most amazing memories that we will cherish forever!!”

# STEPHANIE AND DANIELE

“Thank you SO much from the bottom of our hearts. You are truly amazing.

Daniele and I were saying today that YOU really made our day. Your kindness and positive attitude mixed with your humour made us both feel at ease and ensured we both enjoyed our whole day.

**We couldn't imagine spending the day with ANY other photographer other than you and will be recommending you to everyone we know.**

I just wanted you to know how amazing you are and how much everyone loves you. You are so talented but should be so proud that you have a phenomenal personality to match. We forgot that you were working and thought of you as more of a guest just celebrating the day and night with us! ”

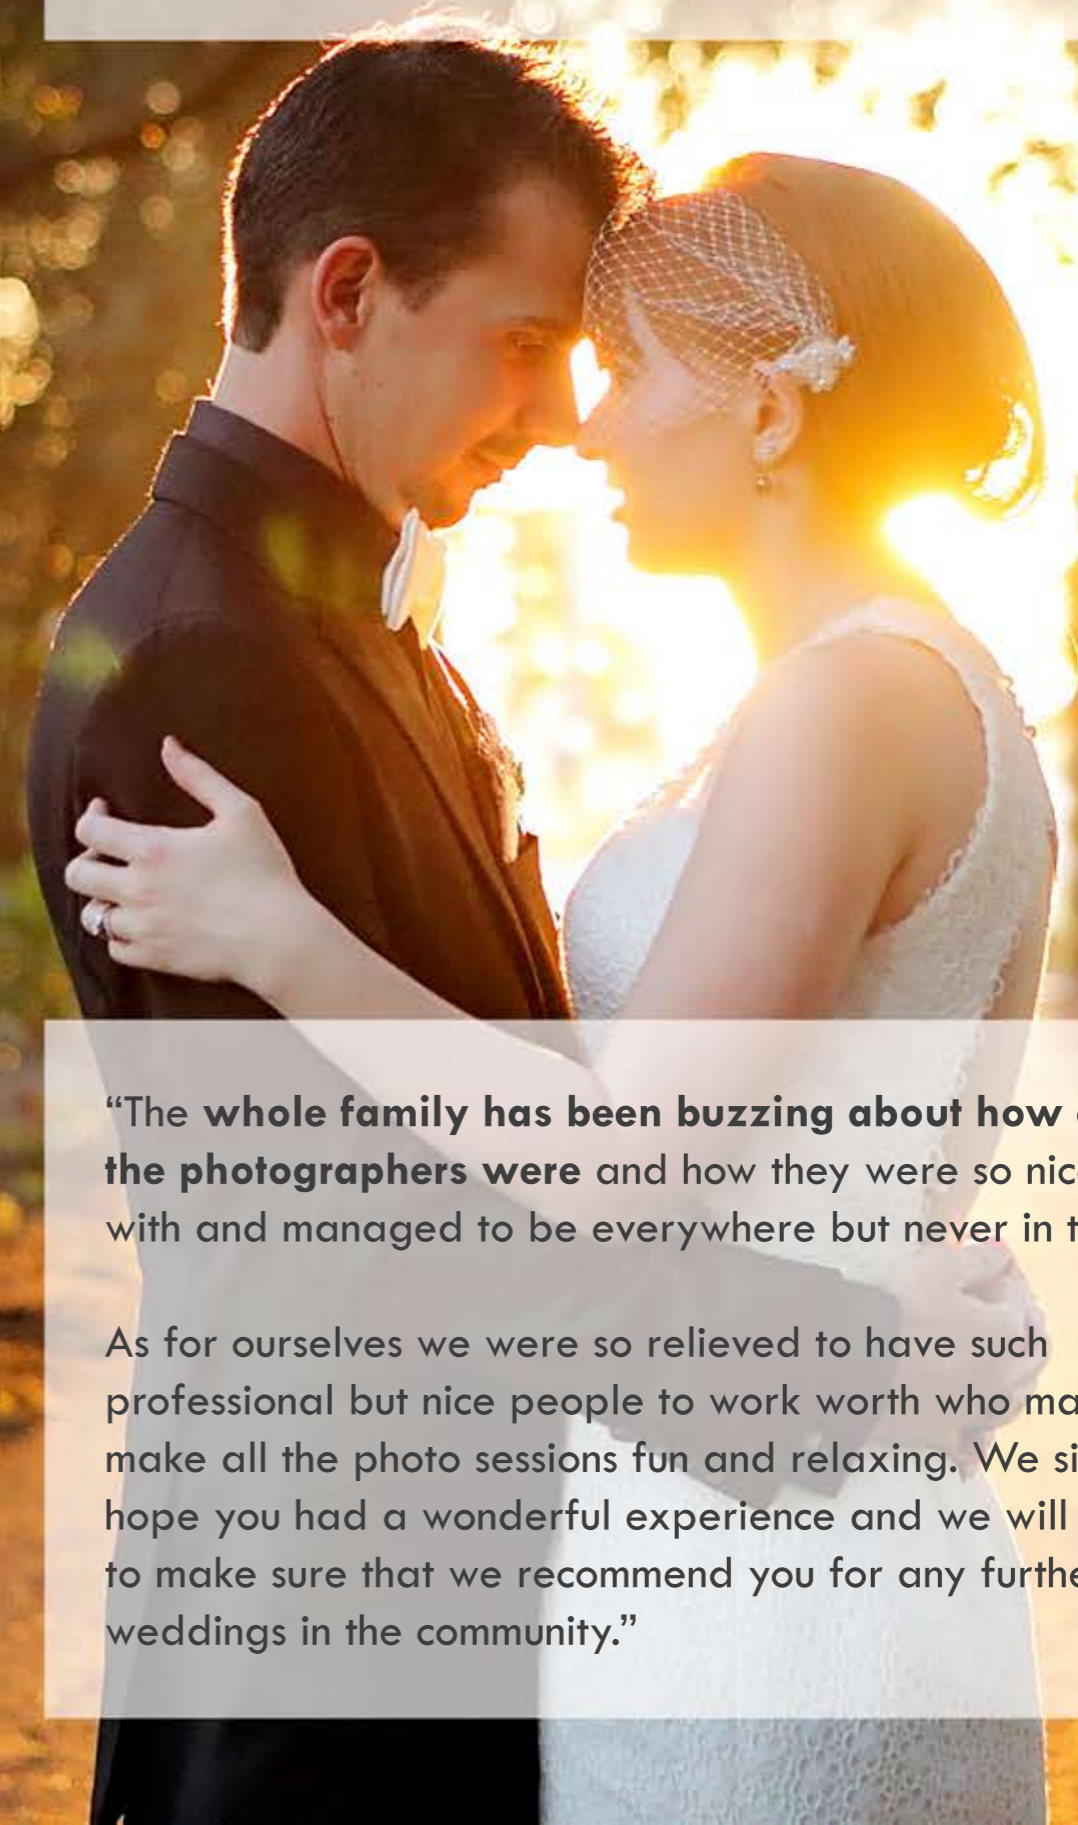

“Compose Photography **without a doubt made the day what it was**, I wouldn't be here without her advice and kindness. I believe she is now a good friend.”

“I would like to thank you and congratulate you on the fantastic job you did at Melissa and Chris's wedding. I have been a bridesmaid on three other occasions and **I have never had a photographer so easy to get along with**. My previous experiences have had me disliking the photographer by the end of the day as I have felt I have been dictated to all day. You never once "bossed" us around and for once I felt the photographer was on the same team as the bridal party.”

“**Absolutely Beautiful** photo compositions. The Photographers were brilliant and were in control organizing all the people for photos very efficiently. The photographer was very skillful in her profession being very creative, pleasant and understanding. Excellent job highly recommended.”

“**Thanks so much for everything**, you were really patient and cheerful on the day which I know helped us relax and your artistic vision for each shot has given us some really beautiful photos!”

“Just wanted to say a big thank you, you were absolutely fab at our recent wedding and **everyone commented on our wonderful photographer!** You kept everyone feeling relaxed and kept us to our timeline.”

“The **whole family has been buzzing about how amazing the photographers were** and how they were so nice to deal with and managed to be everywhere but never in the way.

As for ourselves we were so relieved to have such professional but nice people to work with who managed to make all the photo sessions fun and relaxing. We sincerely hope you had a wonderful experience and we will endeavour to make sure that we recommend you for any further weddings in the community.”

## WHICH WEDDING COVERAGE IS FOR ME?

With so many options, it can be difficult to know what coverage will be best for your wedding. This is why we always suggest making a time to meet with one of our photographers and we can discuss what is most important for you to have captured, and then what is required to achieve this.

A one photographer coverage is best suited to a more intimate wedding, usually with a small bridal party and the ceremony and reception close to each other, or at the same venue. A two photographer coverage allows for more coverage of your family and bridal party, as well as providing alternate angles throughout the ceremony and photos afterwards. It also allows us to cover events happening concurrently, such as pre dinner drinks with your guests, whilst you are still having sunset photos nearby.

You can add reception coverage until 9pm or 10.30pm if you would like to have the evening's events captured. 9pm suits people wanting a general feel of the night and the start of formalities, whereas 10.30pm should have all the main events, including your bridal waltz covered.

Additional coverage can also be added in at an hourly rate if you have additional ceremonies earlier in the day. This is where we can discuss your timeline and provide a personalised quote.
