FEATURED IN...

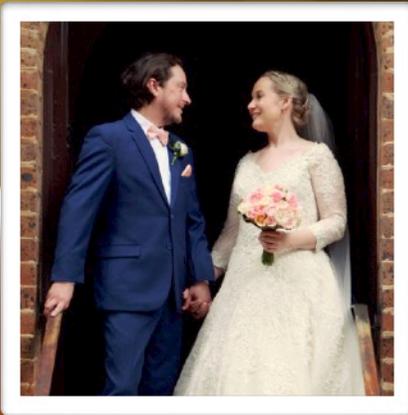

"When we first chatted to John of JP Media about our wedding, we had in our heads the grand views of the Grose Valley and the cliffs in Blackheath being captured in our films and photographs. However on the day, it was all fog and thunderstorms so we didn't have any choice but to stay cozy inside the cottage, with no view of the valley, not even the lawn.

John was able to produce us an AMAZING film with what little content there was to capture inside the cottage. John is so easy to communicate with right from the beginning, and is such a pleasure to have around during the day. He captured up to the littlest details that made our day so special and his camera work is so artistic and beautiful! His edit of our final wedding video still brings tears to our eyes to this day."

We can't thank Johnathan enough for his videography services on our wedding day! He was so warm and kind, and he worked beautifully together with our photographer. The video itself is superb, he has somehow managed to capture every single important moment of the day. We would recommend Johnathan and his services in a heartbeat.

Thank you Johnathan!

Johnathan was absolutely incredible for our wedding. He worked really well with our photographer, they just jelled like they had worked together a million times before. Had the quirky 'huh huh haa' laugh from us to get shots and my gosh they worked a treat. Our finished product is more than we could have ever asked for. We are so happy with it, that we watch it over and over again, and those who watch it shed a tear and get goosebumps.

We liked it so much we have gone back and bought more add ons.

The whole process from booking to final product has been smooth. Worth every cent. And would 100% recommend to others and would use him again without any hesitation

We were so lucky to have Johnathan as our wedding videographer. From the very first moment, Johnathan was a professional - he organised coffee catchup in his own time with us to get to know us. He listened to what we wanted and how we visualised our wedding video. Johnathan was in constant email communication to learn more about the wedding details and be updated as the covid landscape was constantly changing. On the day, Johnathan was so easy to be around. He was seamlessly taking video clips, working extremely hard and working really well with the photographer who he had met on the day. We almost thought that they were friends! You will love Johnathan's style if you like documentary-style editing and shooting and more of natural videography.

Johnathan was such an incredible videographer! He started early in the morning and stayed right up until the end to capture all the moments! He made us feel very comfortable and the end result is perfect. We got the short trailer, the full wedding video as well as the uncut reception. We are so glad we got the reception so we can watch back all the speeches. Very affordable for the level of work as well!
