Bespoke Packages

Not into cookie-cutter packages? Same. The Bespoke is for couples who want something tailored to their vibe, their needs, and their kind of celebration. Whether you're halfway through planning, just getting started, or doing something totally non-traditional, we'll build a package that fits like your dream outfit.

How It Works:

We start with a chill consult to get to know you, your vibe, and what kind of support you need

From there, we curate a custom combo of planning, coordination, and styling that fits your journey

You get a personalised quote + plan that makes sense for you—not just a one-size-fits-all package

What It Could Include:

Vendor bookings, styling help, timelines, day-of coordination + more—totally up to you.

The Vibe:

Full support, zero fluff. You decide what you need, and we make it happen. No more, no less—just good energy, calm guidance, and a wedding that feels so you.

Partial Planning

A lil' bit of planning, a whole lot of peace of mind. This partial planning + day-of coordination package is perfect if you've already got the ball rolling but want some expert backup to pull it all together. Think of me as your wedding sidekick, here to hype you up, keep things on track, and make sure no detail slips through the cracks.

Before the Big Day:

- Initial consult to vibe-check and dream-plan
- Vendor recs (venues, florals, food—I've got your back)
- Budget help + a custom timeline that actually works
- Styling support to help lock in your look + feel
- Venue walkthrough + key vendor meetings

On the Day:

- 8 hours of on-site coordination
- Run sheet + timeline management (hello, structure)
- Vendor wrangling so everyone's where they need to be
- Ceremony + reception flow sorted
- Last-minute troubleshooting (so you don't have to lift a finger)

The Bonus Bit:

A complimentary emergency kit with all the "just in case" lifesavers
