PLANNING | STYLING | COORDINATION

## EVERY CELEBRATION BEGINS WITH A FEELING.

A sense of place, of story, of something deeply personal becoming visual.

At Studio Cate, we design weddings that feel lived-in, considered, and entirely your own.

Not overproduced. Not templated. But layered with intention.

Where styling, florals, and planning exist in quiet harmony.

At Studio Cate, we approach each wedding as a study in form, detail, and atmosphere. Our work is design-led and highly considered, shaped by a modern perspective and a refined look.

Each celebration is thoughtfully curated to feel distinctive, intentional, and entirely your own.

Led by Cate & Seth, with over 8 years of combined experience in the wedding and events industry, we are known for our refined aesthetic, operational approach, and trusted network of suppliers.

From intimate celebrations to large-scale wedding days, together we transform inspiration into seamless, beautifully curated experiences, all while keeping the planning process calm, transparent, and genuinely enjoyable.

## WHY STUDIO CATE?

Choosing a wedding planner is not just about logistics, it's about trust, creative alignment, and the ability to translate vision into something tangible.

Studio Cate offers a seamless blend of planning structure and creative direction, ensuring your wedding is both beautifully designed and flawlessly executed.

*We are not a volume-based studio.* Every celebration we take on is intentionally limited, allowing for a deeply considered and highly personalised approach.

What sets us apart is not only how we plan, but how we see.

We approach weddings like visual narratives, where each space is curated, each detail has purpose, and every moment feels connected to the whole.

Our couples choose us for our clarity, calm presence, and ability to hold both the creative and logistical weight of the entire experience.

From first concept to final styling detail, we ensure nothing feels disconnected, rushed, or accidental.

Instead, your wedding unfolds as a complete story, designed with intention, delivered with precision, and experienced with ease.

### 01 | *Design-led thinking*

We approach every wedding as a visual narrative. From spatial flow to styling details, every decision is made with composition, texture, and atmosphere in mind.

### 02 | *A highly considered approach*

We intentionally take on a limited number of weddings so each celebration receives deep focus, creative clarity, and a tailored planning experience.

### 03 | *Seamless planning & styling integration*

Instead of separating logistics from design, we bring both together, ensuring your wedding feels unified from concept through to execution.

### 04 | *A calm, guided experience*

We hold the complexity so you don't have to. Our role is to create structure, clarity, and confidence throughout the entire process.

### 05 | *Refined vendor curation*

We thoughtfully align you with suppliers who complement your aesthetic, ensuring every element contributes to a cohesive final result.

### 06 | *A complete visual story*

Every wedding is designed as a connected experience, where nothing feels random, rushed, or out of place. Just intentional, layered storytelling from beginning to end.
