Live Sketching

The Experience

While we are all used to posing for cameras, being captured through the eyes of an artist is a meaningful experience which leaves your guests feeling truly seen and appreciated.

My sketches, created by hand on art paper using pencils, ink, pens, and watercolour paints, offer a lasting memory from your wedding day, honouring your guests with a unique gift that will be cherished for years to come.

The Style

You won't find any barbie doll templates here!

I sketch a simplified full body, flattering likeness of your loved ones with care, capturing details from their posture and shape of their smiles, to their outfits and accessories.

Each sketch is recognizable as the subjects, representing various races, ages, and body shapes with appealing lines and shapes using custom mixed colours.

LARGE SKETCHES (A5) WITH PENCIL OUTLINE IN FULL COLOUR

Guest Sketches

You can have all your guests or pre-selected guests sketched on a per person rate:
SMALL A6 sketches in **full colour** or **outfit colour** with **ink outlines** or
LARGE A5 sketches in **full colour** or **outfit colour** with **pencil** or **ink outlines**.

If you don't require specific guests to get sketched, or aren't sure if everyone will be interested, book me at an hourly rate and I'll sketch as many people as possible on **A6** paper within the time window.

Pose for quick photos on my iPad as individuals, couples, or in small groups, and I'll create your custom painted keepsakes while you celebrate!

Or if you're booking hourly, you can choose to have your interested guests **POSE LIVE** for their sketches as part of the entertainment.

Add on the **SCAN OPTION** to have all the sketches scanned which allows you to view, print, share and preserve all the images created at your wedding.

I require a table (minimum 1m in length) and chair at regular height (no high bar tables please!) in a well lit, undercover area.

I display a sign with a simple explanation for your guests and arrange the completed sketches at the front for viewing and collection.

If you're having all your guests sketched, I start photographing them as they arrive for the ceremony, then get to work sketching at my table which can be setup in the canape/post ceremony or reception area while the ceremony is taking place.

This way I get a head start and your guests are delighted to find some sketches already completed when they arrive following the ceremony.

When you and your wedding party arrive, I will also take your reference photos.

A "Fully Booked" sign is displayed once photo capacity is reached for the time frame or if you choose, I can continue taking photos of interested guests to complete additional sketches offsite at a discounted per person rate.

"The most complimented part of our wedding day!! Jennie brought pure magic to the reception. Everyone absolutely loved their sketch and were so excited to bring it home on the day. The video she created afterwards is so special to us! She was so kind and cheerful and brought such a nice energy to the day as well! Would recommend 100%, cheers Jennie!"

"Jennie was absolutely incredible! From start to finish she was professional, warm, and so easy to work with. Her live sketches were a huge hit and everyone loved their couple portraits so much and couldn't stop raving about them (and honestly, they still can't!). Having Jennie at our wedding was such a unique and memorable addition to the day. She captured the energy of our day beautifully, and our guests were blown away by the experience of taking home their own personalised artwork. If you're looking for something special that will delight your guests and create lasting memories, Jennie is the perfect choice. We couldn't recommend her more highly!."
