Hi, I'm Josh! Since 2009, videography has been my passion—and in 2018 I turned that passion into Pendant Media, with one mission: to provide couples with the finest wedding videography experience so they can relive the best day of their lives.

I tell stories through cinematic visuals, blending relaxed, candid moments with carefully crafted shots. My focus is on creating a comfortable, enjoyable, and fun experience that showcases genuine emotion, so your wedding film reflects your unique love story.

FREQUENTLY ASKED QUESTIONS

Can I choose my own music?

Absolutely – I love getting a sense of your preferred music style. You're welcome to suggest songs, genres, or the overall mood (eg, upbeat, emotional, slow), and I'll use this to guide my selection from licensed tracks.

For legal reasons, only properly licensed music can be used. If a requested song requires a license that may incur an additional cost, I'll let you know before using it.

Can we request changes to the wedding film?

Yes – I'm happy to accommodate minor changes to ensure your wedding film is exactly how you like it. Major changes that require extensive re-editing may incur an additional fee, which I'll discuss with you beforehand.

Are your packages customisable?

Yes – each package can be tailored to suit your needs and budget. You can add extras or remove standard inclusions to create the perfect package for your wedding day.

A romantic scene of a bride and groom sitting on a rocky cliff overlooking the ocean at sunset. The groom is on the left, wearing a light-colored suit, and the bride is on the right, wearing a white lace wedding dress. They are both seen from behind, looking out at the sea. The sky is filled with soft, golden light from the setting sun, and the water is calm with gentle waves. The overall mood is peaceful and intimate.
