Stacie & Simone xx

We have invested a lot of money in the best equipment from cinematic cameras to professional mics and lighting.

This allows us to create dreamy, crisp and smooth video content to tell your love story at the highest standard.

While most videographers work alone, together we make sure nothing is missed. Your day tells a story of its own and we want to make sure you can rewatch it, forever.

It's all about you ...

Depending on your requirements and hopes for your day, we offer a range of packages that can be tailored to your wedding day. Let us know what you have in mind, and we can chat about making it happen!

Before the big day, you'll meet with us to discuss what you like, and what is most important to you.

We would love to hear from you and would be honoured to tell your unique wedding story.

FREQUENTLY ASKED QUESTIONS

Q: How will we receive your wedding film?

A: We supply all our films via a 4k downloadable link. We are also able to supply everything that has been edited on an external hard drive which can be added into your package.

Q: Can the collection we choose be customised?

A: Generally, couples opt for our standard collections, occasionally adding extra features. However, customisation is available upon request

Q: Are you willing to travel?

A: Yes! Definitely! We travel all over QLD.

Q: How long until I receive my film?

A: Generally, it will take up to 16 weeks in peak wedding season. However, if you want to skip the queue, we can get it to you 1 week after. Please see our extras for more information.

Q: How Do I Book A Date?

A: A \$500 deposit & signed contract is required in order to get your wedding on the calendar. The remainder of your balance is due one month prior to your wedding. As most couples tend to have their wedding on a Saturday these are the days that book out the quickest.

Q. I don't feel comfortable in front of the camera, should I still get a videographer?

A: That is a very common feeling. Don't worry, as experienced videographers, we'll guide you, but we also want you to enjoy your day, so the natural beauty of love and happiness will be reflected in the film without pressure. Most of the time we will be in the background, so you won't even feel our presence.
